WHO WE ARE

Two Decades of Mastery, One Standard of Excellence

Blue Dragon Swimming Pools Installations designs and builds extraordinary swimming pools, landscapes, water features and complete outdoor living environments across Dubai and the United Arab Emirates.

We are a UAE company driven by more than **18 years of specialised experience** and over **500 completed pools, landscapes and water features**. Our work spans the full spectrum of the craft — from intimate villa pools to resort lagoons, public parks, indoor training pools and bespoke water features.

Every project is delivered end-to-end and overseen personally by our leadership, so the standard set over nearly two decades is present on every site — from the first sketch to the final drop of water.

FROM THE FOUNDER

“

A swimming pool is more than water — it is the heart of a home and a living piece of the landscape around it. After eighteen years and more than five hundred pools, I still treat every single one as if it were the only one we will ever build.
